

Digmesa develops and manufactures Swiss quality precision flow sensors.
For our site in Ipsach (BE) we are looking for a:

Sales specialist (m/f) 100%

As a Key Account Manager in an internationally active company you are motivated by the acquisition of new customers and the care and support to key customers alike. You compile customer development plans, you maintain customer contacts and accompany the complete sales process decisively. We appreciate your technical qualification in the electronic or mechanical department as well as your communication skills. The team aspect is important to you and you also support internal projects and developments.

Digmesa offers you a modern workplace, a dynamic and open team as well as progressive conditions of employment in an international and varied field.

Your qualifications:

Higher vocational education (eidg. FA/Swiss Federal Diploma or equivalent), at least 3 years of professional experience

Language skills:

Fluency in English and German, any other language is a plus.

Information about the position:

place of work: 2563 Ipsach (BE)

position: 100% (full-time)

start of employment: as of now

employment period: unlimited

If you feel addressed by this vacancy and if you want to contribute to the company's growth we would be very pleased to receive your application by e-mail: thomas.studer@digmesa.com
